### PROFILE

---

#### Personal Summary:

Creative and passionate software developer with over two years of experience in web and software application development. Dedicated to bringing innovative ideas to life and solving real-world challenges through technology. I am driven by a simple yet powerful belief: "Driven by a mission to make technology accessible, helpful, and life-enhancing for everyone."

### EXPERIENCE

---

Front-End Development

#### 2024-Present

Developing websites using HTML , CSS and JavaScript , Every project I finished I upload it on my GITHUB profile you can visit it with by link: <https://github.com/TAREKTIKO>

MC Access Applications

#### 2023-Present

Developing MS Access Applications , like a human resources project , with a fully access on the employees

C-Sharp Application (Design)

#### 2024-Present

Developed and executed content marketing strategies that leveraged social media to drive traffic, engagement, and conversions. Produced high-quality, engaging content for social media, email marketing, and the company's blog.

C# - C++ Console Applications

#### 2024-2025

Developing Console Applications using C# and C++ with training activity belongs to my college and C++ was a subject in my college , in both I generated a new ideas applying it with console application it was simple but interesting. Some projects like Calculation , some drawings and some generated words.
